SUMMARY

Manager, Risk and Compliance Transformation candidate for KPMG's Governance, Risk and Compliance Services (GRCS) practice, bringing roughly 7 years across financial-institution risk governance, regulatory transformation, and advisory delivery. Delivered IFRS 17/IFRS 9 governance documentation and regulatory-readiness work for Canadian insurers at EY, including go-to-market collateral supporting practice business development. Currently a member of Moody's Analytics' model governance committee, holding delegated sign-off on analytics for institutional portfolios (\$5-25bn per engagement) - independent review, documentation, and escalation discipline transferable to enterprise risk and compliance frameworks. CFA, dual MSc; working proficiency in Python, SQL, and agentic-AI tooling (Claude Code, Cursor).

CORE SKILLS

Risk & Regulatory Transformation Delivery • Risk Framework Design (ALM/Investment) & Independent Model Review • Model Governance & Committee Participation • Governance Documentation & Auditability Standards • Regulatory Readiness (IFRS 17 / IFRS 9) • Risk Analytics Platform Implementation & Configuration (PFaroe/Calypso) • Requirements Scoping & Product/Dev Liaison • AI Platforms & Agentic Workflows (Claude Code, Cursor) • Data Analytics - Python, SQL, Advanced Excel • Cross-Functional Coordination (Risk, Finance, Actuarial, IT) • Executive & Committee Reporting • Client Engagement & Business Development Support

EXPERIENCE

Moody's Analytics

Asst. Director, Modelling Services

Toronto, May 2023 - Present

Risk Governance & Independent Review

- Member of the model governance committee - contributing to methodology review, documentation and benchmarking standards, and model-performance assessment for client-delivered analytics.
- Hold delegated sign-off authority on valuation, sensitivity, and ALM outputs for multi-asset institutional portfolios of \$5-25bn per engagement (~\$50bn+ cumulative), performing independent review and challenge before production release.
- Operate within a formal governance framework - validating assumptions, assessing economic defensibility, and building governance documentation and auditability standards consistent with model risk management guidance (OSFI E-23 / SR 11-7 style).
- Escalate outputs lacking mathematical or economic support and act as escalation point for client-critical issues, interfacing directly with clients' Heads of Risk and investment stakeholders.

Risk Technology, AI & Data Analytics

- Built agentic AI workflows on AI platforms (Claude Code, Cursor IDE) automating code generation, validation scaffolding, anomaly detection, and documentation - reducing development cycle time an estimated 30-40% on comparable modules.
- Re-engineered manual spreadsheet processes into scalable Python data-analytics pipelines with embedded logging, validation, and audit controls.
- Led design and implementation of an enterprise multi-asset cash flow projection engine supporting base, stress, and reverse-stress scenarios across ALM horizons.

Stakeholder Reporting & Client Delivery

- Prepare analytical summaries for senior stakeholder audiences on interest-rate exposure, scenario impacts, and balance-sheet sensitivities - translating quantitative output into committee-ready narratives.

Client Service Specialist

Toronto, May 2022 - May 2023

- Led onboarding and implementation across multiple client engagements for U.S. and Canadian pension funds, asset managers, and consulting firms adopting the PFaroe DB (risk & ALM analytics) and PFaroe PM platforms.

- Scoped client requirements into Product Owner development requests and migrated all assigned accounts off the legacy Calypso platform, validating model outputs post-deployment.

Ernst & Young (EY)

Senior Consultant, IFRS & Financial Risk Transformation

Toronto, Sep 2021 - Apr 2022

- Delivered IFRS 17 and IFRS 9 transformation engagements for Canadian and international insurance clients - aligning regulatory requirements with system implementation and financial-reporting frameworks.
- Advised actuarial, IT, finance, and program-management functions on standard adoption; contributed to governance documentation and regulatory readiness processes for financial institutions.
- Developed IFRS 17 advisory product offerings and go-to-market collateral supporting practice business development.
- Coordinated actuarial, finance, IT, risk, and PM teams on milestone delivery and implementation materials.

Ortec Finance Canada

Consultant, Asset-Liability Management & Risk

Toronto, Feb 2019 - Sep 2021

- Designed stochastic risk-management frameworks tailored to specific client mandates for Canadian and international pension funds and institutional investors.
- Delivered ALM and liability-driven investment studies analyzing funding ratios, duration mismatch, and long-term balance-sheet risk under base-case and stressed environments.
- Presented study findings and allocation recommendations on-site to investment committees at Canadian pension-fund clients.
- Led onboarding and the ALM study for a three-plan university pension merger - on a team of three developing and validating the model capturing all Funding Policy dynamics.

EDUCATION & CREDENTIALS

- Chartered Financial Analyst (CFA) - CFA Institute, 2024
- MSc, Financial Modelling - Western University, 2018
- MSc, Chemical Engineering (Full Scholarship) - Western University, 2016
