SUMMARY

Global Treasury Audit, Vice President candidate with ~7 years across Asset Liability Management, Interest Rate Risk in the Banking Book, and independent model review. Holds delegated sign-off authority at Moody's Analytics on valuation, sensitivity, and ALM outputs for multi-asset institutional portfolios of \$5-25bn per engagement, and serves on the model governance committee. Depth in NII and EVE sensitivity, behavioral cash flow assumptions, stress testing, hedging, and senior management reporting. CFA charterholder; dual MSc.

CORE SKILLS

Interest Rate Risk in the Banking Book (IRRBB) • Asset Liability Management (ALM) • Net Interest Income (NII) & Economic Value of Equity (EVE) Sensitivity • Duration, Convexity & Repricing Gap Analytics • Behavioral Cash Flow & Prepayment Assumptions • Stress Testing & Scenario Analysis • Independent Model Review & Challenge • Model Governance, Documentation & Escalation • Interest Rate, Inflation & FX Hedging Analysis • Liquidity Gap & Cash Flow Projection • Senior Management & Committee Reporting • Python, SQL & Advanced Excel

EXPERIENCE

Moody's Analytics

Asst. Director – Modelling Services

Toronto, May 2023 - Present

Interest Rate Risk Measurement, Assumptions & Scenario Design

- Oversaw interest-rate risk, duration, and convexity analysis under parallel and non-parallel rate shocks – the EVE and NII sensitivity mechanics underlying IRRBB standards consistent with Basel Committee and industry supervisory frameworks.
- Embedded and validated behavioral cash flow assumptions, prepayment logic, and macro stress overlays within projection models, aligned with regulatory liquidity expectations and executive contingency planning.
- Validated derivatives pricing outputs across rates, FX, and inflation, confirming consistency of sensitivities and scenario impacts at portfolio-level ALM aggregates.

Balance Sheet, Funding & Liquidity Analysis

- Led design and implementation of an enterprise multi-asset cash flow projection engine supporting base, stress, and reverse-stress scenarios, delivering forward-looking liquidity visibility across ALM horizons.
- Architected configurable time-bucketed liquidity gap analytics (T+1 through multi-year) enabling funding optimization, refinancing risk assessment, and asset-allocation decisions.
- Reviewed aggregation logic converting security-level exposures into portfolio-level risk metrics feeding downstream ALM and capital processes.

Independent Challenge, Governance & Management Reporting

- Held delegated sign-off authority on valuation, sensitivity, and ALM outputs for multi-asset institutional portfolios of \$5-25bn per engagement (~\$50bn cumulative), independently reviewing curve construction, spread calibration, and cross-asset interactions prior to production release.
- Served on the model governance committee, contributing to methodology review, documentation and benchmarking standards, and model-performance assessment consistent with SR 11-7-style model risk expectations.
- Escalated outputs lacking mathematical or economic defensibility and acted as escalation point for client-critical analytical issues with clients' Heads of Risk and investment stakeholders.
- Prepared analytical summaries for senior stakeholders on interest-rate exposure, scenario impacts, and balance-sheet sensitivities, translating quantitative output into committee-ready conclusions.

Client Service Specialist

Toronto, May 2022 - May 2023

- Led onboarding and implementation for U.S. and Canadian pension funds, asset managers, and consulting firms on the PFaroe DB (risk & ALM) and PFaroe PM (portfolio management) platforms, validating model outputs post-deployment.
- Advised clients on asset, liability, and ALM configurations and translated investment-team requirements into development requests, completing migration of all assigned accounts from the legacy Calypso platform.

Ernst & Young (EY)

Senior Consultant – Financial Risk Transformation

Toronto, Sep 2021 - Apr 2022

- Delivered IFRS 17 and IFRS 9 transformation projects for Canadian and international insurance clients, aligning regulatory requirements with system implementation and financial-reporting frameworks.
- Contributed to governance documentation and regulatory-readiness processes, coordinating actuarial, finance, IT, risk, and program-management functions on milestone delivery.

Ortec Finance Canada

Consultant – ALM & Risk

Toronto, Feb 2019 - Sep 2021

- Delivered ALM studies for Canadian and international pension funds and institutional investors, analyzing funding ratios, duration mismatch, and long-term balance-sheet risk exposures.
- Built and interpreted stochastic economic scenario generators assessing interest-rate risk and funding volatility under base-case and stressed environments.
- Conducted liability-driven investment (LDI) analysis covering duration alignment, return objectives, and liquidity, plus interest-rate, inflation, and currency hedging analysis for international clients.
- Presented ALM study findings and stress-test results on-site to investment committees at Canadian pension-fund clients.

EDUCATION & CREDENTIALS

- Chartered Financial Analyst (CFA) - CFA Institute, 2024
- MSc, Financial Modelling - Western University, 2018
- MSc, Chemical Engineering (Full Scholarship) - Western University, 2016
