SUMMARY

Global Treasury Audit, Vice President candidate with ~7 years across Asset Liability Management, IRRBB measurement, and independent review and challenge of institutional balance-sheet risk. Holds delegated sign-off authority on valuation, sensitivity, and ALM outputs for portfolios of \$5-25bn per engagement at Moody's Analytics, escalating outputs that lack economic defensibility. Depth spans Economic Value of Equity (EVE) and Net Interest Income (NII) sensitivity, duration and convexity, behavioral cash-flow assumptions, stress scenarios, and hedging analytics. CFA charterholder; dual MSc.

CORE SKILLS

Interest Rate Risk in the Banking Book (IRRBB) • Asset Liability Management (ALM) • Economic Value of Equity (EVE) & Net Interest Income (NII) Sensitivity Analysis • Independent Review, Credible Challenge & Escalation • Model Governance, Documentation & Sign-Off Authority • Duration, Convexity & Key-Rate Analytics • Behavioral Cash-Flow Assumptions & Prepayment Logic • Stress Testing & Scenario Design (incl. Reverse Stress) • Balance-Sheet Risk Positioning, Funding & Liquidity Gap Analytics • Interest-Rate, Inflation & Currency Hedging Analysis • Basel Committee IRRBB Principles & OSFI B-12 Familiarity • Senior Management & Investment-Committee Risk Reporting

EXPERIENCE

Moody's Analytics

Asst. Director - Modelling Services

Toronto, May 2023 - Present

Independent Review, Credible Challenge & Escalation

- Held delegated sign-off authority on valuation, sensitivity, and ALM outputs delivered to institutional client portfolios of \$5-25bn per engagement (~\$50bn+ cumulative), independently reviewing methodology and assumptions prior to production release.
- Served on the model governance committee, contributing to methodology review, documentation and benchmarking standards, and model-performance assessment for client-delivered analytics.
- Escalated outputs lacking mathematical or economic defensibility and acted as escalation point for client-critical analytical issues, interfacing directly with clients' Heads of Risk and investment stakeholders.

Interest Rate Risk & Asset Liability Measurement

- Oversaw interest-rate risk and duration analysis under parallel and non-parallel rate shocks for multi-asset institutional balance sheets, aligned with IRRBB standards analogous to OSFI B-12 and Basel Committee frameworks.
- Reviewed curve construction, spread calibration, cross-asset interactions, and stress behavior underpinning Economic Value of Equity (EVE) and Net Interest Income (NII) sensitivity measures prior to production release.
- Validated derivatives pricing outputs across rates, FX, and inflation, cross-checking sensitivity and scenario consistency at portfolio-level ALM aggregates.
- Reviewed aggregation logic converting security-level exposures into portfolio-level risk metrics feeding downstream ALM and capital processes.

Funding, Stress Analytics & Senior Management Reporting

- Led design and implementation of an enterprise multi-asset cash flow projection engine supporting base, stress, and reverse-stress scenarios, delivering forward-looking liquidity visibility across ALM horizons.
- Architected configurable time-bucketed liquidity gap analytics (T+1 through multi-year) enabling funding optimization, refinancing risk assessment, and asset-allocation decisions.
- Embedded behavioral cash-flow assumptions, prepayment logic, and macro stress overlays aligned with regulatory liquidity expectations and executive contingency planning.
- Prepared analytical summaries for senior stakeholders covering interest-rate exposure, scenario impacts, and balance-sheet sensitivities, translating quantitative output into committee-ready narratives.

Client Service Specialist

Toronto, May 2022 - May 2023

- Led onboarding and implementation for U.S. and Canadian pension funds, asset managers, and consulting firms migrating to PFaroe DB (risk & ALM analytics) and PFaroe PM, validating model outputs post-deployment.
- Advised client investment teams on asset, liability, and ALM configurations and translated their requirements into scoped development requests for product owners.

Ernst & Young (EY)**Senior Consultant - IFRS & Financial Risk**

Toronto, Sep 2021 - Apr 2022

- Delivered IFRS 17 and IFRS 9 transformation projects for Canadian and international insurance clients, aligning regulatory requirements with system implementation and financial-reporting frameworks.
- Advised actuarial, finance, IT, and program-management functions on standards adoption and contributed to governance documentation and regulatory-readiness processes.

Ortec Finance Canada**Consultant - ALM & Risk**

Toronto, Feb 2019 - Sep 2021

- Delivered ALM studies for Canadian and international pension funds and institutional investors, analyzing funding ratios, duration mismatch, and long-term balance-sheet risk exposures.
- Built and interpreted stochastic economic scenario generators assessing interest-rate risk and funding volatility under base-case and stressed environments.
- Performed cash flow, liquidity, and hedging analysis across interest-rate, inflation, and currency risk for international institutional clients.
- Conducted liability-driven investment (LDI) analysis covering trade-offs between return objectives, duration alignment, and liquidity considerations.
- Presented ALM study findings and allocation recommendations on-site to investment committees at Canadian pension-fund clients.

EDUCATION & CREDENTIALS

- Chartered Financial Analyst (CFA) - CFA Institute, 2024
- MSc, Financial Modelling - Western University, 2018
- MSc, Chemical Engineering (Full Scholarship) - Western University, 2016
