SUMMARY

CFA charterholder and quantitative finance professional with ~7 years in financial modeling, valuation, and independent model review — aligned to an Investment Banking Expert engagement evaluating AI-generated financial analyses and valuation models. At Moody's Analytics, holds delegated sign-off authority, independently reviewing and validating valuation, derivatives-pricing, and scenario outputs for multi-asset institutional portfolios (\$5–25bn per engagement) for accuracy and economic defensibility. Grounded in DCF, corporate finance, accounting (IFRS), and capital markets, with advanced Excel and Python.

CORE SKILLS

Financial Modeling & Valuation • Valuation Analysis – DCF & Multiples • Derivatives & Fixed-Income Valuation • Independent Model Review & Validation • Stress, Scenario & Sensitivity Analysis • Corporate Finance & Capital Markets • Accounting & Financial Reporting (IFRS) • Python, SQL & Advanced Excel • Model Governance & Documentation

EXPERIENCE

Moody's Analytics - Asset Management & Buy-Side Solutions

Asst. Director - Modelling Services | Toronto, May 2023 – Present

- Independently review and validate valuation, derivatives-pricing, sensitivity, and scenario outputs for multi-asset institutional portfolios (\$5–25bn per engagement; \$50bn+ cumulative), holding delegated sign-off authority — assessing model accuracy, assumptions, and economic defensibility before release.
- Review and challenge financial models and multi-scenario engines (base, stress, reverse-stress), documenting assumptions, limitations, and testing results to formal model-governance standards.
- Re-engineered manual spreadsheet workflows into auditable Python pipelines and built agentic-AI workflows (Claude Code, Cursor) that cut model development and validation cycle time an estimated 30–40%.

Client Service Specialist - ALM & Risk Analytics | Toronto, May 2022 – May 2023

- Validated model outputs post-deployment and led client onboarding for U.S. and Canadian pension funds and asset managers migrating to the PFaroe analytics platform.

Ernst & Young (EY)

Senior Consultant - IFRS & Financial Risk Transformation | Toronto, Sep 2021 – Apr 2022

- Delivered IFRS 17 and IFRS 9 financial-reporting transformation for insurance clients, aligning accounting standards with model and system implementation.

Ortec Finance Canada

Consultant - Asset-Liability Management & Risk | Toronto, Feb 2019 – Sep 2021

- Built and validated stochastic Monte Carlo economic scenario generators and ALM/LDI studies for pension funds and institutional investors.
- Performed VaR/CVaR portfolio optimization, risk decomposition, and interest-rate/inflation/currency hedging analysis; presented findings to investment committees and senior stakeholders.

EDUCATION & CREDENTIALS

- Chartered Financial Analyst (CFA) – CFA Institute, 2024
- MSc, Financial Modelling – Western University, 2018
- MSc, Chemical Engineering (Full Scholarship) – Western University, 2016
