Re: Analyst, Total Fund Management (12-Month Contract) – CPP Investments

Dear Hiring Team,

I currently validate daily valuation, sensitivity, and ALM outputs at Moody's Analytics for multi-asset institutional portfolios ranging \$5-25bn per engagement – investigating discrepancies, coordinating with technology partners on enhancements, and serving as the escalation point for client-critical analytical issues. Those are the exact accountabilities described in the Analyst, Total Fund Management (12-Month Contract) posting, and they are why I am writing.

Over the past four years at Moody's I have validated derivatives outputs across rates, FX, and inflation; re-engineered manual spreadsheet workflows into auditable Python pipelines; and led the design of a multi-asset cash flow projection and liquidity gap engine – work that gave me a practical understanding of cash and financing flows across portfolios and the trade-offs involved in funding and liquidity decisions. Before Moody's I delivered insurance-accounting transformation at EY, and ALM studies for Canadian pension funds at Ortec Finance, where I presented findings to investment committees and ran multi-asset stochastic scenario analysis daily. I hold the CFA charter and dual MSc degrees from Western University, and write production Python and SQL against large datasets.

What draws me specifically to CPP Investments is the TFM mandate itself – a front-to-back seat where Beta, Collateral and Liquidity Management, and Trading meet Technology and Operations on a balance sheet that shapes outcomes for Canadians at scale. I have spent my career on the analytics and operational side of that interface: translating front-office requirements into engineering work, validating what comes back, and owning the investigation when outputs do not reconcile. The 12-month structure suits my situation well; I would focus on contributing immediately and learning the desk's specific workflows from colleagues who run them at institutional scale.

I am Toronto-based, available for interviews immediately, and can start approximately four weeks after offer acceptance. Thank you for your consideration.

Sincerely,
