SUMMARY

Market Risk Manager candidate with ~7 years across market, interest-rate, and liquidity risk analytics, fixed-income valuation and credit-spread sensitivities, and independent review and challenge within a model-governance framework analogous to a second line of defense mandate. Holds delegated sign-off authority on valuation, sensitivity, and risk outputs for multi-asset institutional portfolios (\$5-25bn per engagement) at Moody's Analytics. Deep fixed-income valuation and risk-sensitivity expertise; stress and scenario analysis; VaR/CVaR portfolio risk from Ortec. CFA charter and dual MSc.

CORE SKILLS

Market & Interest-Rate Risk Measurement • Fixed Income Valuation & Risk Sensitivities • Liquidity Risk & Cash-Flow Projection • Independent Review & Challenge • Stress Testing & Scenario Analysis • VaR / CVaR & Risk Decomposition • Model Governance, Documentation & Benchmarking Standards • Python & SQL Analytics • Stakeholder & Executive Communication • CFA Charterholder

EXPERIENCE

Moody's Analytics

Asst. Director - Modelling Services (Investment & ALM Risk Lead)

Toronto, May 2023 - Present

Independent Review, Challenge & Market Risk Measurement

- Hold delegated sign-off authority on valuation, sensitivity, and risk outputs delivered to multi-asset institutional portfolios ranging \$5-25bn per engagement (~\$50bn+ cumulative) - independently reviewing curve construction, spread calibration, and cross-asset interactions prior to release.
- Validate derivatives pricing outputs across rates, FX, and inflation, ensuring consistency of risk sensitivities and scenario impacts at portfolio-level aggregates.
- Escalate outputs lacking mathematical or economic defensibility; serve as escalation point for client-critical analytical issues, interfacing with Heads of Risk and investment stakeholders.
- Member of the model governance committee - contributing to methodology review, documentation and benchmarking standards, and model-performance assessment for client-delivered analytics.

Interest Rate, Liquidity & Stress Analytics

- Oversee interest-rate risk and duration analysis under parallel and non-parallel rate shocks, aligned with Basel-style interest-rate risk standards.
- Led design of a multi-asset cash-flow projection engine supporting base, stress, and reverse-stress scenarios - delivering forward-looking liquidity visibility across risk horizons.
- Architected configurable time-bucketed liquidity gap analytics (T+1 through multi-year) enabling funding and refinancing-risk assessment.

Stakeholder Communication, Tooling & Mentorship

- Prepared analytical summaries for senior stakeholders on interest-rate exposure, scenario impacts, and balance-sheet sensitivities - translating quantitative outputs into decision-ready narratives.
- Re-engineered manual spreadsheet workflows into scalable, auditable Python analytics pipelines; contributed to mentorship of junior colleagues on validation and review practices.

Client Service Specialist

Toronto, May 2022 - May 2023

- Led onboarding and implementation for U.S. and Canadian pension funds, asset managers, and consulting firms migrating to the PFaroe analytics platform (PFaroe DB and PFaroe PM).
- Served as technical liaison between client investment teams and product owners; advised on asset, liability, and risk configurations and validated model outputs post-deployment.

Ernst & Young (EY)**Senior Consultant - IFRS & Financial Risk Transformation**

Toronto, Sep 2021 - Apr 2022

- Delivered IFRS 17 and IFRS 9 transformation projects for Canadian and international insurance clients, aligning regulatory requirements with risk and financial-reporting frameworks.
- Advised actuarial, IT, finance, and program functions on standards adoption; contributed to governance documentation and regulatory-readiness processes.

Ortec Finance Canada**Consultant - Asset-Liability Management & Risk**

Toronto, Feb 2019 - Sep 2021

- Performed asset-only and asset-liability portfolio optimization on VaR and CVaR using Ortec's GLASS platform, with risk decomposition, attribution, and near-optimal frontier robustness analysis.
- Built and interpreted stochastic economic scenario generators assessing interest-rate risk and funding volatility under base-case and stressed environments.
- Performed cash-flow, liquidity, and hedging analysis across interest-rate, inflation, and currency risk for international institutional clients.
- Delivered ALM studies analyzing funding ratios, duration mismatch, and long-term balance-sheet risk; presented findings to investment committees at pension-fund clients.
