SUMMARY

Associate Vice President, Investment Strategist candidate with ~7 years across multi-asset portfolio analytics, macroeconomic research and scenario analysis, and asset allocation advisory. Delivers duration, yield curve, and credit-exposure analysis and translates it into investment-committee-ready narratives at Moody's Analytics, holding delegated sign-off on outputs for institutional portfolios (\$5-25bn per engagement). Prior LDI and strategic asset allocation advisory for Canadian pension funds at Ortec Finance. CFA charterholder; dual MSc in Financial Modelling and Chemical Engineering.

CORE SKILLS

Investment Strategy & Asset Allocation • Macroeconomic Research & Scenario Analysis • Multi-Asset Portfolio Construction • Fixed Income, Duration & Yield Curve Analytics • Credit & Sector Exposure Analysis • Stress Testing & Scenario Analysis • Investment Communications & Presentations • Investment-Committee Presentation • Python & Data Visualization (Plotly, matplotlib)

EXPERIENCE

Moody's Analytics

Asst. Director - Modelling Services

Toronto, May 2023 - Present

Investment Strategy & Portfolio Analytics

- Held delegated sign-off authority on valuation, sensitivity, and portfolio-level outputs for multi-asset institutional portfolios of \$5-25bn per engagement (~\$50bn+ cumulative) - independently reviewing curve construction, spread calibration, and cross-asset interactions.
- Analyzed portfolio exposures and risks - duration positioning, yield-curve sensitivity, credit and cross-asset exposures, and security- to portfolio-level aggregation - across multi-asset institutional mandates.
- Validated derivatives outputs across rates, FX, and inflation, ensuring consistency of sensitivities and scenario impacts at portfolio-level aggregates.

Macroeconomic Research & Scenario Analysis

- Designed and delivered a multi-scenario cash-flow projection engine supporting base, stress, and reverse-stress scenarios, embedding macro stress overlays and behavioural assumptions.
- Built time-bucketed liquidity and exposure analytics (T+1 through multi-year) informing funding, refinancing, and asset-allocation decisions.
- Re-engineered manual spreadsheet workflows into scalable Python analytics pipelines feeding recurring charts and dashboards used across delivery teams.

Investment Communication & Stakeholder Engagement

- Prepared and delivered analytical summaries for senior stakeholders on interest-rate exposure, scenario impacts, and balance-sheet sensitivities - translating quantitative outputs into decision-ready narratives.
- Served as escalation point for client-critical analytical issues, interfacing directly with clients' Heads of Risk and investment stakeholders.

Client Service Specialist

Toronto, May 2022 - May 2023

- Led onboarding and implementation for U.S. and Canadian pension funds, asset managers, and consulting firms migrating to the PFaroe analytics platform, translating investment-team requirements into configuration and validation work.
- Advised clients on asset, liability, and allocation configurations and validated model outputs post-deployment.

Ortec Finance Canada

Consultant - Asset-Liability Management & Risk

Toronto, Feb 2019 - Sep 2021

- Advised Canadian and international pension funds on Strategic Asset Allocation (SAA) and Tactical Asset Allocation (TAA) trade-offs via stress testing and sensitivity analysis - presenting findings to investment committees on-site.
- Built and interpreted stochastic economic scenario generators assessing interest-rate risk, funding volatility, and market cycles under base-case and stressed environments.
- Performed asset-only and asset-liability (surplus) portfolio optimization on VaR and CVaR using Ortec's GLASS platform, with risk decomposition, attribution, and near-optimal frontier robustness analysis.
- Conducted liability-driven investment (LDI) analysis - trade-offs across return objectives, duration alignment, and liquidity - and cash-flow, liquidity, and hedging analysis across interest-rate, inflation, and currency risk.

Ernst & Young (EY)

Senior Consultant - IFRS & Financial Risk

Toronto, Sep 2021 - Apr 2022

- Delivered IFRS 17 and IFRS 9 transformation projects for Canadian and international insurance clients, coordinating across actuarial, finance, IT, and risk functions.
- Developed advisory product offerings and go-to-market collateral, and contributed to governance documentation and regulatory-readiness processes.

EDUCATION & CREDENTIALS

- Chartered Financial Analyst (CFA) - CFA Institute, 2024
- MSc, Financial Modelling - Western University, 2018
- MSc, Chemical Engineering (Full Scholarship) - Western University, 2016
