SUMMARY

Vice President Investment Research & Portfolio Management candidate with ~7 years across institutional investment research, multi-asset portfolio analytics, and investment governance. Holds delegated sign-off authority on valuation, sensitivity, and portfolio outputs for multi-asset institutional portfolios (\$5-25bn per engagement) at Moody's Analytics, with earlier VaR/CVaR portfolio optimization, LDI, and strategic asset allocation advisory at Ortec Finance. CFA charterholder; dual MSc (Financial Modelling, Engineering). Strong in translating research into investment-committee-ready decisions.

CORE SKILLS

Investment Research & Analysis • Multi-Asset Portfolio Construction • Strategic & Tactical Asset Allocation • Portfolio Optimization (VaR / CVaR) • Risk Management & Model Governance • Investment Committee Presentation • Regulatory Readiness & Compliance Support • Due Diligence & Investment Selection • Performance Measurement & Sensitivity Analysis • Capital Markets & Fixed Income • Stochastic Scenario Modelling • Stakeholder & Client Engagement

EXPERIENCE

Moody's Analytics – Asset Management & Buy-Side Solutions

Asst. Director – Modelling Services

Toronto, May 2023 - Present

Investment Research & Portfolio Analytics

- Hold delegated sign-off authority on valuation, sensitivity, and portfolio outputs delivered to multi-asset institutional portfolios ranging \$5-25bn per engagement (~\$50bn+ cumulative), reviewing curve construction, spread calibration, and cross-asset interactions prior to release.
- Reviewed aggregation logic converting security-level exposures into portfolio-level analytics and performance metrics feeding downstream investment and capital processes.
- Validated derivatives outputs across rates, FX, and inflation, ensuring consistency of sensitivities and scenario impacts at multi-asset portfolio aggregates.

Governance, Oversight & Compliance

- Operate within a formal model-governance framework as a member of the model governance committee, contributing to methodology review, documentation and benchmarking standards, and model-performance assessment for client-delivered analytics.
- Escalated outputs lacking mathematical or economic defensibility, serving as escalation point for client-critical analytical issues and holding releases pending remediation.

Client & Investment-Committee Engagement

- Prepared analytical summaries for senior stakeholders and clients' Heads of Risk, translating quantitative outputs into investment-committee-ready narratives on exposure, scenario impacts, and balance-sheet sensitivities.
- Led design of an enterprise multi-asset cash-flow projection engine supporting base, stress, and reverse-stress scenarios, delivering forward-looking portfolio and liquidity visibility across investment horizons.

Client Service Specialist

Toronto, May 2022 - May 2023

- Led onboarding and implementation for U.S. and Canadian pension funds, asset managers, and consulting firms migrating to the PFaroe analytics platform, advising on asset, liability, and portfolio configurations.
- Served as technical liaison between client investment teams and product owners; validated model outputs post-deployment and migrated all assigned accounts from the legacy Calypso platform.

Ernst & Young (EY)**Senior Consultant – IFRS & Financial Risk Transformation**

Toronto, Sep 2021 - Apr 2022

- Delivered IFRS 17 and IFRS 9 transformation projects for Canadian and international insurance clients, aligning regulatory requirements with financial-reporting and governance frameworks.
- Advised actuarial, finance, IT, and program-management functions on adoption, contributing to governance documentation and regulatory-readiness processes.

Ortec Finance Canada**Consultant – Asset-Liability Management & Risk**

Toronto, Feb 2019 - Sep 2021

- Advised institutional clients on Strategic Asset Allocation (SAA) and Tactical Asset Allocation (TAA) trade-offs via stress testing and sensitivity analysis, presenting findings and recommendations to pension-fund investment committees on-site.
- Performed asset-only and asset-liability (surplus) portfolio optimization on VaR and CVaR using Ortec's GLASS platform, with risk decomposition, risk budgeting, and near-optimal frontier analysis to test allocation robustness.
- Conducted liability-driven investment (LDI) analysis across return objectives, duration alignment, and liquidity, and built stochastic economic scenario generators to assess funding volatility under base and stressed environments.
- Led onboarding and the ALM study for a three-plan university pension merger, developing and validating the model capturing all funding-policy dynamics across duration, currency, inflation, and leverage overlay strategies.

EDUCATION & CREDENTIALS

- Chartered Financial Analyst (CFA) - CFA Institute, 2024
- MSc, Financial Modelling - Western University, 2018
- MSc, Chemical Engineering (Full Scholarship) - Western University, 2016
