SUMMARY

Senior Manager, Executive Portfolio & Financial Management profile: ~7 years turning complex financial and portfolio data into executive-ready narratives. Holds delegated sign-off authority at Moody's Analytics over analytics delivered to institutional portfolios of \$5-25bn per engagement, and serves as the direct escalation contact for clients' Heads of Risk and investment stakeholders when a number needs explaining. Consulting foundation at EY and Ortec Finance coordinating finance, IT, actuarial, and program teams to strict milestone deadlines, including investment-committee presentations at pension-fund clients. CFA charterholder, dual MSc, advanced Excel and Python.

CORE SKILLS

Executive-Level Reporting & Presentations • Translating Complex Data into Actionable Insights • Cross-Functional Stakeholder Management • Financial Analysis & Performance Metrics • Portfolio & Investment Risk Analytics • Scenario Analysis & Long-Term Planning • Operational Efficiency & Process Automation • Advanced Excel & Data Visualization • Python & SQL

EXPERIENCE

Moody's Analytics

Asst. Director, Modelling Services

Toronto, May 2023 - Present

Executive Reporting & Stakeholder Engagement

- Prepared recurring and ad-hoc analytical summaries for senior stakeholders on rate exposure, scenario impacts, and balance-sheet sensitivities, translating quantitative output into investment-committee-ready narratives.
- Served as escalation point for client-critical analytical issues, interfacing directly with clients' Heads of Risk and investment stakeholders on findings, impact, and remediation plans.

Portfolio Performance & Financial Analytics

- Held delegated sign-off authority on valuation, sensitivity, and portfolio analytics delivered to multi-asset institutional portfolios of \$5-25bn per engagement, ~\$50bn+ cumulative across the book of work.
- Reviewed aggregation logic converting security-level exposures into portfolio-level risk metrics feeding downstream risk reporting and capital processes.
- Led design and delivery of an enterprise multi-asset cash flow projection engine supporting base, stress, and reverse-stress scenarios across T+1 to multi-year planning horizons.

Operational Efficiency & Delivery Productivity

- Built agentic AI development workflows (Claude Code, Cursor IDE) automating code generation, validation scaffolding, and documentation, reducing development cycle time an estimated 30-40% on comparable modules.
- Re-engineered manual spreadsheet workflows into scalable, auditable Python analytics pipelines with embedded logging and validation controls.

Quality Assurance & Precision Standards

- Member of the model governance committee, contributing to methodology review, documentation and benchmarking standards, and performance assessment of client-delivered analytics.

Client Service Specialist

Toronto, May 2022 - May 2023

- Led onboarding and implementation for U.S. and Canadian pension funds, asset managers, and consulting firms migrating to the PFaroe DB (risk & ALM) and PFaroe PM (portfolio management) platforms.
- Acted as technical liaison between client investment teams and product owners, scoping business requirements into development requests and validating outputs post-deployment across all assigned accounts.

Ernst & Young (EY)**Senior Consultant, IFRS & Financial Risk Transformation**

Toronto, Sep 2021 - Apr 2022

- Coordinated across actuarial, finance, IT, risk, and program-management teams on milestone delivery and implementation materials for IFRS 17 and IFRS 9 transformation programs.
- Advised actuarial, IT, finance, and program-management functions of Canadian and international insurance clients on adoption of IFRS 17 and IFRS 9 standards.
- Contributed to governance documentation and regulatory-readiness processes for financial institutions.
- Developed IFRS 17 advisory product offerings and go-to-market collateral for the practice.

Ortec Finance Canada**Consultant, Asset-Liability Management & Risk**

Toronto, Feb 2019 - Sep 2021

- Presented study findings and allocation recommendations on-site to investment committees at Canadian pension-fund clients.
- Delivered long-horizon studies for Canadian and international pension funds and institutional investors, analyzing funding ratios, duration mismatch, and balance-sheet exposures over multi-year planning horizons.
- Performed asset-only and asset-liability (surplus) portfolio optimization on VaR and CVaR using Ortec's GLASS platform, with risk decomposition and attribution to test the robustness of allocation recommendations.
- Advised clients on Strategic Asset Allocation and Tactical Asset Allocation trade-offs through stress testing and sensitivity analysis.
- Led onboarding and the study for a three-plan university pension merger on a team of three, developing and validating the model capturing all funding-policy dynamics.
