SUMMARY

Director, Business Analytics & Insights candidate with ~7 years turning institutional financial data into executive decisions for asset managers, pension funds, and institutional investors. Holds delegated sign-off on valuation, sensitivity, and ALM analytics for multi-asset institutional portfolios (\$5-25bn per engagement) at Moody's Analytics, sits on the model governance committee overseeing documentation, benchmarking, and performance-assessment standards, and re-engineered manual spreadsheet reporting into auditable Python pipelines. Communicates findings and recommendations to senior executives, investment committees, and Heads of Risk. CFA charterholder, dual MSc.

CORE SKILLS

Business Analytics & Insight Delivery • Executive & Senior-Stakeholder Reporting • Performance Measurement & KPI Analytics • Data Visualization (Plotly, matplotlib, Excel) • Python & SQL Analytics • Model & Data Governance Controls • Scenario Analysis & Stress Testing • Enterprise Analytics Platform Implementation • Cross-Functional Partnership: Technology, Product & Data • Agentic AI Workflow Automation (Claude Code, Cursor) • Client Onboarding & Requirements Scoping • Institutional Asset Management & Pension Client Analytics

EXPERIENCE

Moody's Analytics

Asst. Director - Modelling Services

Toronto, May 2023 - Present

Analytics Delivery & Executive Insight

- Prepares analytical summaries for senior stakeholders on exposures, scenario impacts, and balance-sheet sensitivities, translating quantitative output into investment-committee-ready narratives.
- Holds delegated sign-off authority on valuation, sensitivity, and ALM analytics delivered to multi-asset institutional client portfolios of \$5-25bn per engagement (~\$50bn+ cumulative across the book of work).
- Serves as escalation point for client-critical analytical issues, interfacing directly with clients' Heads of Risk and investment stakeholders, and escalating output lacking economic defensibility.

Reporting Solutions, Data Quality & Governance

- Re-engineered manual spreadsheet workflows into scalable Python analytics pipelines with embedded logging, validation, and auditability controls.
- Reviews aggregation logic converting security-level data into portfolio-level metrics, supporting data governance and data-quality standards across downstream ALM, reporting, and capital processes.
- Contributes as a member of the model governance committee to methodology review, documentation and benchmarking standards, and performance assessment of client-delivered analytics.

Analytics Modernization & Technology Partnership

- Led design and implementation of an enterprise multi-asset cash flow projection engine supporting base, stress, and reverse-stress scenarios, giving clients forward-looking visibility across planning horizons.
- Architected configurable time-bucketed analytics (T+1 through multi-year) enabling funding, refinancing, and asset-allocation decisions.
- Built agentic AI development workflows (Claude Code, Cursor IDE) automating code generation, validation scaffolding, anomaly detection, and documentation, reducing development cycle time an estimated 30-40% on comparable modules.

Client Service Specialist

Toronto, May 2022 - May 2023

- Led onboarding and implementation for U.S. and Canadian pension funds, asset managers, and consulting firms adopting the PFaroe DB (risk & ALM analytics) and PFaroe PM (portfolio management) platforms.
- Acted as technical liaison between client investment teams and product owners, scoping business requirements into prioritized development requests and validating model output post-deployment.

- Migrated all assigned client accounts from the legacy Calypso environment to the PFaroe PM platform on schedule.

Ernst & Young (EY)

Senior Consultant - Financial Risk Transformation

Toronto, Sep 2021 - Apr 2022

- Delivered IFRS 17 and IFRS 9 technology-transformation projects for Canadian and international insurance clients, aligning reporting requirements with system implementation.
- Coordinated actuarial, finance, IT, risk, and program-management teams on milestone delivery, governance documentation, and implementation materials.
- Developed IFRS 17 advisory product offerings and go-to-market collateral for the practice.

Ortec Finance Canada

Consultant - ALM & Risk

Toronto, Feb 2019 - Sep 2021

- Delivered analytical studies for Canadian and international pension funds and institutional investors, quantifying funding outcomes and long-horizon portfolio risk to support committee-level decisions.
- Presented study findings and strategic allocation recommendations on-site to investment committees at Canadian pension-fund clients.
- Performed asset-only and asset-liability portfolio optimization on VaR and CVaR using Ortec's GLASS platform, with risk decomposition and attribution to test the robustness of recommendations.
- Advised clients on Strategic Asset Allocation and Tactical Asset Allocation trade-offs through stress testing and sensitivity analysis.
- Led onboarding and the study for a three-plan university pension merger on a team of three, developing and validating the model capturing all funding-policy dynamics.

EDUCATION & CREDENTIALS

- Chartered Financial Analyst (CFA) - CFA Institute, 2024
- MSc, Financial Modelling - Western University, 2018
- MSc, Chemical Engineering (Full Scholarship) - Western University, 2016
