SUMMARY

Liquidity and balance-sheet analytics professional with ~7 years of institutional client-facing and advisory experience, aligned to the Transaction Banking - VP, Trade Finance, Cash Management and Liquidity Solutions mandate at BNP Paribas. Designed a multi-scenario cash flow projection engine and time-bucketed liquidity gap analytics at Moody's Analytics; led onboarding and implementation for U.S. and Canadian institutional clients; delivered multi-currency hedging, funding, and asset allocation studies at Ortec Finance across Canadian and international mandates. CFA charterholder; dual MSc, Financial Modelling and Chemical Engineering.

CORE SKILLS

Liquidity Solutions & Cash Flow Projection • Liquidity Gap & Funding Analysis (T+1 to Multi-Year) • Client Onboarding & Implementation Delivery • Institutional Client Advisory & Stakeholder Engagement • Client Requirements Translation & Solution Configuration • Balance-Sheet & Accounting Analysis (CFA Foundation; IFRS 9/17 Transformation Delivery) • Multi-Currency Hedging (FX, Inflation, Interest Rate) • Scenario Analysis & Stress Testing • Operational Controls, Documentation & Governance

EXPERIENCE

Moody's Analytics

Asst. Director - Modelling Services

Toronto, May 2023 - Present

Liquidity Solutions & Cash Flow Analytics

- Led design and implementation of an enterprise multi-asset cash flow projection engine supporting base, stress, and reverse-stress scenarios, delivering forward-looking liquidity visibility across institutional balance-sheet horizons.
- Architected configurable time-bucketed liquidity gap analytics (T+1 through multi-year) enabling funding optimization, refinancing risk assessment, and asset allocation decisions for client portfolios.
- Embedded behavioural cash flow assumptions, prepayment logic, and macro stress overlays aligned with regulatory liquidity expectations and executive contingency planning.

Client Portfolio Reviews & Senior Stakeholder Engagement

- Hold delegated sign-off authority on valuation, sensitivity, and balance-sheet outputs delivered to multi-asset institutional clients, \$5-25bn per engagement and ~\$50bn+ cumulatively across the book of work.
- Serve as escalation point for client-critical analytical issues, interfacing directly with clients' Heads of Risk and investment stakeholders to resolve them under delivery deadlines.
- Prepare periodic analytical reviews for senior stakeholders covering interest rate exposure, scenario impacts, and balance-sheet sensitivities, translating quantitative output into committee-ready narratives.

Multi-Currency Derivatives Validation & Operational Controls

- Validate derivatives pricing outputs across rates, FX, and inflation, confirming consistency of sensitivities and scenario impacts at portfolio-level aggregates.
- Contribute to the model governance framework as a committee member, reviewing methodology, documentation and benchmarking standards, and escalating outputs lacking economic defensibility.
- Re-engineered manual spreadsheet workflows into scalable Python analytics pipelines with embedded logging, validation, and auditability controls.

Client Service Specialist

Toronto, May 2022 - May 2023

Client Onboarding, Implementation & Requirements Translation

- Led onboarding and implementation for U.S. and Canadian pension funds, asset managers, and consulting firms migrating to the PFaroe DB (risk & ALM) and PFaroe PM (portfolio management) platforms.
- Acted as technical liaison between client investment teams and product owners, scoping complex client requirements into structured development requests and advising on asset, liability, and ALM configurations.

- Contributed to the successful migration of all assigned client accounts from the legacy Calypso environment to the PFaroe PM platform, validating model outputs post-deployment.

Ernst & Young (EY)

Senior Consultant - IFRS & Risk Transformation

Toronto, Sep 2021 - Apr 2022

- Delivered IFRS 17 and IFRS 9 transformation projects for Canadian and international insurance clients, aligning accounting and regulatory requirements with system implementation and financial-reporting frameworks.
- Developed IFRS 17 advisory product offerings and go-to-market collateral, and coordinated actuarial, finance, IT, risk, and program-management teams on milestone delivery and implementation materials.

Ortec Finance Canada

Consultant - Asset-Liability Management & Risk

Toronto, Feb 2019 - Sep 2021

- Delivered ALM and balance-sheet studies for Canadian and international pension funds and institutional investors, analyzing funding ratios, duration mismatch, and long-term balance-sheet and liquidity risk exposures.
- Performed cash flow, liquidity, and hedging analysis across interest-rate, inflation, and currency risk for international institutional clients.
- Advised clients on Strategic Asset Allocation and Tactical Asset Allocation trade-offs through stress testing and sensitivity analysis, including liability-driven investment work balancing return, duration, and liquidity objectives.
- Presented study findings on-site to investment committees at Canadian pension-fund clients, converting technical results into decisions the committee could act on.
- Led onboarding and the ALM study for a three-plan university pension merger, on a team of three developing and validating the model capturing all Funding Policy dynamics and evaluating duration, currency, inflation, and leverage overlay strategies.

EDUCATION & CREDENTIALS

- Chartered Financial Analyst (CFA) - CFA Institute, 2024
- MSc, Financial Modelling - Western University, 2018
- MSc, Chemical Engineering (Full Scholarship) - Western University, 2016
- Languages: English (fluent), French (conversational)
