SUMMARY

Senior Manager, Corporate Treasury Performance Management, ALM candidate bringing ~7 years across asset-liability management, interest rate risk, and executive balance-sheet reporting. Holds delegated sign-off authority at Moody's Analytics on valuation, sensitivity, and ALM outputs for institutional portfolios of \$5-25bn per engagement, reviewing rate-shock sensitivities and hedge-output consistency before release. Led design of a multi-scenario cash-flow and balance-sheet projection engine spanning base, stress, and reverse-stress paths, and prepares interest-rate exposure and balance-sheet sensitivity analysis for senior stakeholders. CFA charterholder with dual MSc degrees.

CORE SKILLS

Asset-Liability Management (ALM) • Interest Rate Risk Management • Hedging Analysis - Interest Rate, Inflation, Currency • Balance-Sheet & Cash-Flow Forecasting • Scenario Analysis & Stress Testing • Duration Gap & Repricing Mismatch • Management Reporting & Decision Support • Excel Financial Modelling • Python Process Automation

EXPERIENCE

Moody's Analytics

Asst. Director - Modelling Services

Toronto, May 2023 - Present

Interest Rate Risk & Hedging Analysis

- Holds delegated sign-off authority on valuation, sensitivity, and ALM outputs for multi-asset institutional portfolios of \$5-25bn per engagement (~\$50bn+ cumulative), independently reviewing curve construction, spread calibration, and cross-asset interactions prior to release.
- Oversees interest rate risk and duration analysis under parallel and non-parallel rate shocks, aligned with IRRBB-style standards analogous to OSFI B-12 and Basel Committee frameworks.
- Validates derivatives pricing outputs across rates, FX, and inflation, confirming consistency of hedging sensitivities and scenario impacts at portfolio-level ALM aggregates.

Balance Sheet Projection, Forecasting & Decision Support

- Led design and implementation of an enterprise multi-asset cash-flow projection engine supporting base, stress, and reverse-stress scenarios, delivering forward-looking balance sheet and liquidity visibility across ALM horizons.
- Architected configurable time-bucketed gap analytics (T+1 through multi-year) enabling funding optimization, refinancing risk assessment, and asset-allocation decisions.
- Embedded behavioural cash-flow assumptions, prepayment logic, and macro stress overlays into projection scenarios, and reviewed aggregation logic converting security-level exposures into portfolio-level metrics feeding downstream ALM processes.

Stakeholder Reporting, Governance & Process Streamlining

- Prepares analytical summaries for senior stakeholders and clients' Heads of Risk covering interest rate exposure, scenario impacts, and balance sheet sensitivities, translating quantitative output into committee-ready narratives.
- Re-engineered manual spreadsheet workflows into scalable Python analytics pipelines with embedded logging, validation, and auditability controls; serves on the model governance committee for client-delivered analytics.
- Built agentic AI development workflows (Claude Code, Cursor IDE) automating code generation, validation scaffolding, and documentation, cutting development cycle time an estimated 30-40% on comparable modules.

Client Service Specialist

Toronto, May 2022 - May 2023

- Led onboarding for U.S. and Canadian pension funds, asset managers, and consulting firms onto PFaroe DB (risk & ALM analytics) and PFaroe PM, advising on asset, liability, and ALM configurations and validating model outputs post-deployment.

Ernst & Young (EY)**Senior Consultant - IFRS & Financial Risk**

Toronto, Sep 2021 - Apr 2022

- Delivered IFRS 17 and IFRS 9 transformation projects for Canadian and international insurance clients, aligning accounting requirements with system implementation and financial reporting frameworks.
- Coordinated actuarial, finance, IT, risk, and program-management teams on milestone delivery, governance documentation, and regulatory-readiness processes.

Ortec Finance Canada**Consultant - Asset-Liability Management & Risk**

Toronto, Feb 2019 - Sep 2021

- Delivered ALM studies for Canadian and international pension funds and institutional investors, analyzing funding ratios, duration mismatch, and long-term balance sheet risk exposures.
- Performed cash flow, liquidity, and hedging analysis across interest rate, inflation, and currency risk for international institutional clients.
- Built and interpreted stochastic economic scenario generators assessing interest rate risk and funding volatility under base-case and stressed environments.
- Presented ALM study findings and strategic asset allocation recommendations on-site to investment committees at Canadian pension-fund clients.

EDUCATION & CREDENTIALS

- Chartered Financial Analyst (CFA) - CFA Institute, 2024
- MSc, Financial Modelling - Western University, 2018
- MSc, Chemical Engineering (Full Scholarship) - Western University, 2016
