Re: Market Risk Coverage Lead - Vice President – JPMorganChase

Dear Hiring Team,

I currently hold delegated sign-off authority on valuation and sensitivity outputs for multi-asset institutional portfolios of \$5-25bn per engagement at Moody's Analytics - the independent risk measurement, monitoring, and challenge mandate at the center of the Market Risk Coverage Lead - Vice President role in J.P. Morgan Asset Management Risk. I would like to be considered for it.

My day-to-day maps closely onto this mandate. I independently review curve construction, spread calibration, and cross-asset interactions before analytics reach institutional clients, validate derivatives sensitivities and scenario impacts at portfolio-level aggregates, and sit on the model governance committee that sets methodology and documentation standards. I led the design of a multi-asset cash-flow and liquidity engine covering base, stress, and reverse-stress scenarios. Earlier, at Ortec Finance, I ran hands-on VaR and CVaR portfolio optimization and risk decomposition on the GLASS platform for pension and institutional mandates, presenting findings directly to investment committees. I have also modernized legacy spreadsheet workflows into auditable Python pipelines and built agentic-AI tooling that automates validation scaffolding and flags anomalies in code and model outputs - adjacent to, though distinct from, market-data anomaly detection, and a discipline I would bring to this seat.

What draws me to this mandate is its scope across Tax Management Solutions, Model Delivery, and Customization at Scale - a platform where risk frameworks have to be built alongside the product rather than after it. My depth sits in multi-asset, cash-flow-driven institutional mandates rather than real estate specifically; I would expect to ramp on the asset class quickly and bring the framework, escalation discipline, and stakeholder-translation experience I have built at Moody's and Ortec with me. I hold the CFA charter and dual MSc degrees from Western University, am based in Toronto, available for interviews immediately, and can start approximately four weeks after offer acceptance. Thank you for your consideration.

Sincerely,
